November - December 1962

## NEW HORIZONS : from the President

In eleven months of life, AROSC has become a functioning and effective organization, devoted to assisting Owners to "get the most out of their Alfas". Within, there are divisions that are necessary to evaluation and growth. Do we stage more events, should we emphasize non-competitive functions? What about special goals? All of these are useful questions to which every member should devote some reflective thought. Externally, we still have important gaps. Our relationships with dealers tends to be weak. We are not recognized by most dealers as a resource to their business or to their customers. This needs much work. Another area untouched is that of relationships to other clubs. For example: Have we some common goals and interests with the Porsche People? All these demand your attention so that AROSC takes the direction of most benefit to all.

Finally, I wish to express my deepest gratitude to all those who have worked so hard through the past year. Your patience and tolerance of my efforts to learn a completely new business has been appreciated and I hope that I will be able to offer the next "fearless-leader" some of the same support.
